Team ID	
Project Name	Smart Lender – Loan Approval Prediction
Maximum Marks	4 Marks

Empathy Map

This empathy map represents the perspective of a loan applicant using Smart Lender. It helps understand the applicant's needs, concerns, actions, and emotions so the machine learning system can provide faster and fairer loan approval decisions.

SAYS	THINKS
• I need quick approval on my loan application. • I hope my loan gets sanctioned without delay. • I want a fair and transparent evaluation process.	• Will my income and credit history be enough? • Is the loan amount and term right for me? • I hope the prediction model judges me fairly.
PERSONA NAME Loan Applicant (Customer/User)	
DOES	FEELS
• Submits personal, financial, and employment details. • Enters income, loan amount, and credit history. • Waits for the instant prediction result.	• Anxious while waiting. • Confident if credit history is good. • Relieved when approved.
