

Project Demo Planning

Date	3 July 2026
Team ID	
Project Name	Smart Lender
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member. The complete demo was conducted solo by Pavani Karanam within a total duration of 3 minutes.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduced the loan approval challenge and the need for a data-driven creditworthiness prediction system.	0.5	Pavani Karanam
2	Solution Overview	Explained the Smart Lender architecture: ML model integrated into a Flask app, deployed on IBM Cloud.	0.5	Pavani Karanam
3	Data Preprocessing & Model Training	Walked through data cleaning, feature engineering, and training of Decision Tree, Random Forest, KNN, and XGBoost models.	0.5	Pavani Karanam
4	Live Feature Demonstration (Flask UI)	Live demo of entering applicant details and instantly receiving a loan approval prediction using the deployed XGBoost model.	0.5	Pavani Karanam
5	Use-Case Scenarios	Demonstrated fast-track approval, high-risk applicant detection, and batch evaluation scenarios.	0.5	Pavani Karanam
6	Q&A Session	Answered audience questions on model accuracy, feature selection, and deployment approach.	0.5	Pavani Karanam

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Presented solo by Pavani Karanam, covering the motivation behind Smart Lender.
2	Solution Overview	Presented solo by Pavani Karanam, explaining the model pipeline and tech stack.
3	Live Feature Demonstration	Presented solo by Pavani Karanam, running a real-time prediction on the Flask app.
4	Q&A Session	Handled solo by Pavani Karanam, addressing all audience questions.
